ABOUT ME

I am a Bachelor of Information Technology (Hons) graduate with strong front-end development experience. My part-time work and university activities as an event crew member have strengthened my communication and teamwork skills, allowing me to adapt to diverse environments. I am looking for opportunities where I can apply both my technical expertise and interpersonal skills, enabling me to grow in both tech and customer-facing roles.

EDUCATION

Kwang Hua (Private) High School   2013 – 2018
Unified Examination Certificate (UEC)

HELP University Damansara   2019, May – 2021, July
Diploma in Information Technology

HELP University Subang 2   2022, Jan – 2024, July
Bachelor of Information Technology (Hons)

WORK EXPERIENCE

Gloco Sdn Bhd (Internship)   2021, May – 2021, July
Technical Support
- Assisted clients via phone calls to diagnose and resolve technical issues with the medical system.
- Developed effective communication skills to provide clear guidance and support to clients.

Tester
- Conducted software testing to identify issues and ensure application stability before release.
- Documented the testing process, findings, and potential optimizations in detailed reports.
- Collaborated with developers to troubleshoot and refine application performance.

Webby Sdn Bhd (Internship)
2024, May - 2024, July

Front-End Developer

- Developed web interfaces based on Figma designs provided by the design team.
- Integrated APIs from back-end developers to ensure seamless data flow.
- Tested the website's functionality and user-friendliness, reporting issues and debugging as needed.
- Reported daily progress and updates to the project lead.
- Enhanced skills in React.js, Next.js, Node.js, and GitHub.

IKita Festival (Part-Time)
30/08/2024 - 01/09/2024

Promoter

- Distributed food samples and promoted products to event attendees.
- Engaged with customers to provide product information and encourage sales.
- Enhanced communication skills and confidence when interacting with strangers.
- Gained hands-on experience in sales techniques.

Homeland Animals Shelter (Part-Time)
17/09/2024 - 19/09/2024

Promoter

- Raised funds to support animal shelters and improve stray animal welfare.
- Educated the public about the challenges faced by animal shelters and the importance of animal protection.
- Engaged with strangers, enhancing communication skills and confidence.

Beutea (Part-Time)
20/11/2024 - 13/12/2024

Barista & Cashier

- Prepared and served beverages according to customer orders, ensuring quality and consistency.
- Handled cash and digital transactions accurately while processing customer orders.
- Maintained cleanliness and hygiene of the workspace to ensure a safe and pleasant environment.
- Provided excellent customer service, ensuring a positive experience for guests.

Not Only Toy (Part-Time)
02/01/2025 - 26/01/2025

Employee
- Maintained cleanliness and organization of the event space, ensuring a tidy environment.
- Assisted customers by answering inquiries about product availability and occasionally providing product recommendations.
- Restocked shelves and labeled items in a timely manner to ensure smooth sales operations.
- Monitored event area to prevent theft or damage to displayed items.
- Assisted my boss with various tasks, including handling payments, retrieving stock, organizing inventory, and counting merchandise.

CO-CURRICULAR ACTIVITIES

Kwang Hua (Private) High School
2016 - 2017

Hostel Autonomy Committee (Clerical Team Leader)
- Delegated tasks, supervised team members, and provided support to ensure smooth operations.
- Held regular meetings to review progress, address challenges, and coordinate tasks.
- Recorded and archived key discussions and decisions from major meetings and dormitory activities.

HELP University
2022 - 2023

Community Outreach Society (Vice Event Planner)
- Organized engaging events for society members and the public to encourage participation.
- Collaborated with team members to coordinate event logistics and execution.
- Ensured smooth and efficient event operations by overseeing planning and on-site management.

PROJECT

ERC 20 Token Exchange (Final Year Project)
Project Leader & Front-End Developer

- Led the project team and managed task delegation to ensure smooth development.
- Designed and developed the entire system interface using React.js.
- Regularly reported project progress to the university supervisor.
- Coordinated team members' responsibilities to prevent issues and maintain workflow efficiency.

Unico Infotech (Internship Project)
Front-End Development Assistant

- Assisted senior developers in front-end development and learning throughout the project.
- Focused on the admin portal, while other teams handled the website and mobile application.
- Developed the admin portal using Next.js and React.js, integrating APIs.
- Tested and reviewed pages developed by senior developers, identifying bugs and UI/UX issues, then reporting and debugging them.
- Completed assigned tasks within deadlines as delegated by senior developers.

Sonobee (Internship Project)
Front-End Developer

- Worked as a front-end developer, primarily responsible for the admin portal.
- Developed the admin portal using Next.js and React.js.
- Key responsibilities included module development, bug fixing, UI improvements, API integration, maintaining logic, and supporting future updates.
